Go-to-Market • Product Positioning • AI-Assisted Execution

Petaling Jaya, Malaysia | Open to Relocate

viewsofbala.m@gmail.com | +91 99402 78073 | [linkedin.com/in/bala0101](https://www.linkedin.com/in/bala0101)

EXECUTIVE PROFILE

Senior Product Marketing professional with 6+ years of experience bringing B2B SaaS, FinTech, and AI-enabled products to market across India and Southeast Asia.

Experienced in product positioning, go-to-market strategy, enterprise messaging, customer psychology, pricing, competitive intelligence, sales enablement, founder-led branding, and AI-assisted execution. Strong track record of simplifying complex products into compelling value propositions that improve customer understanding and support commercial growth.

Known for combining strategic thinking with rapid AI prototyping to solve business problems, streamline workflows, and deliver high-impact outcomes within lean, fast-moving organizations.

CAREER HIGHLIGHTS

- Contributed to taking an enterprise workflow automation platform from concept to VAPT-certified production in under four months through AI-assisted execution.
- Developed enterprise positioning, pricing strategy, and sales enablement assets supporting government and enterprise GTM initiatives.
- Built competitive positioning against SAP, Oracle, and regional SaaS competitors through structured market analysis.
- Designed and built a lightweight AI-assisted Market Intelligence tool for personal competitive research that was later adopted internally.
- Led founder-led LinkedIn branding for a fintech CEO, generating meaningful conversations with prospects and contributing to new business opportunities.
- Developed GTM strategies across enterprise SaaS solutions spanning HR, Education, Government, and Workflow Automation.

CORE COMPETENCIES

Product Marketing: Product Positioning • Messaging Frameworks • Go-to-Market Strategy • Product Launches • Customer Research • Competitive Positioning • Value Proposition Design • Sales Enablement

Commercial Strategy: Pricing Strategy • Market Intelligence • Founder-Led Branding • Revenue Enablement • Business Strategy • Strategic Storytelling

AI & Innovation: AI Workflow Design • AI Prototyping • Prompt Engineering • Workflow Automation • Competitive Intelligence

PROFESSIONAL EXPERIENCE

OPTIMO TECH SDN. BHD. (Formerly QIC Tech)

Dec 2024 – Present

Head of Marketing & Business Development (Product) | Petaling Jaya, Malaysia

Optimo develops enterprise workflow automation solutions serving government agencies and enterprise organizations across Southeast Asia.

- Led product commercialization and go-to-market strategy for enterprise workflow automation solutions.
- Developed positioning, messaging, pricing strategy, and enterprise sales enablement across four white-label SaaS offerings.
- Built competitive positioning against SAP, Oracle, and regional competitors by identifying differentiation opportunities and commercial advantages.
- Supported enterprise proposals and government procurement initiatives through customer-centric messaging and strategic documentation.
- Led documentation and stakeholder coordination for obtaining MySTI certification with Malaysian government authorities.

- Leveraged AI to accelerate documentation, content creation, workflow automation, product planning, and commercial execution.

Selected Initiative — AI Market Intelligence Tool

Recognized repetitive effort in competitive research and independently built a lightweight AI-assisted application to improve personal productivity. The tool was subsequently adopted internally to support market research and competitor analysis. Capabilities include competitor landscape generation, product gap analysis, opportunity mapping, live market news aggregation, and AI-assisted market insights.

CTRL ALT CREAT

Feb 2025 – May 2026

Head of Marketing | Malaysia

- Led marketing strategy and brand positioning for startup and B2B clients.
- Developed integrated content strategies aligned with business growth objectives.
- Built repeatable content systems that significantly improved organic engagement.
- Worked closely with leadership, designers, and strategists to strengthen client acquisition and brand visibility.

FINFORZ TECHNOLOGIES

Mar 2023 – Dec 2024

Content Marketer | Chennai, India

- Developed product marketing content, educational resources, and messaging frameworks for fintech solutions.
- Created sales collateral, presentations, and customer-facing assets supporting business development and pre-sales initiatives.
- Led the CEO's LinkedIn founder branding strategy, transforming leadership insights into thought leadership content that generated meaningful conversations with prospects and contributed to new business opportunities.
- Conducted market research and competitor analysis to support product positioning and GTM initiatives.
- Supported corporate events through content creation, photography, videography, and post-event marketing.

NSPIRA MANAGEMENT SERVICES

Jan 2022 – Jan 2023

Content Writer

- Produced research-driven educational content for digital and print platforms.
- Collaborated with internal teams to improve communication quality and content effectiveness.

VELAMMAL BODHI CAMPUS

Jan 2020 – Dec 2021

Content Writer

- Created blogs, reports, website content, and institutional communications.
- Managed digital content supporting student, educator, and parent engagement.

SELECTED PROJECTS

AI Market Intelligence Tool *(Personal Project | Later Adopted Internally)*

Designed and built a lightweight AI-assisted application to reduce time spent on competitive research. Generates structured competitor landscapes, product gap analysis, opportunity mapping, and live market news, enabling faster market understanding and hypothesis generation.
