

Bala Subramanian

PRODUCT MARKETING MANAGER | GTM
STRATEGIST | AI-POWERED GROWTH

Bridging the gap between brilliant
products and market domination.

MISSION:

Harnessing the power
of AI and strategic
storytelling to build,
launch, and scale
B2B SaaS solutions
faster and smarter.

Architecting Growth Through Narrative and Technology

A strategic product marketer with 6+ years of experience engineering growth across B2B SaaS, FinTech, and Enterprise platforms in APAC.

Architecting Growth

Designing zero-to-one GTM strategies that turn theoretical concepts into scalable commercial realities.

The AI Multiplier

Deploying generative AI and no-code tools to execute marketing, product launches, and operational cycles at unprecedented speeds.

Translating Complexity

Converting intricate technical capabilities into compelling, human-centric sales narratives that drive enterprise adoption.

The Power of the Narrative: Where It Started

The Foundation

B.A. in English Language & Literature (University of Madras).

Early career focus on K-12 curriculum development and institutional communications at Nspira and Velammal.

The Pivot Point

The Realization: The most brilliant technical products fail in the market without compelling, emotionally resonant stories.

The Commercial Application

Transitioned from educational content to commercial brand strategy.

Applied narrative frameworks to complex B2B tech and FinTech products to drive competitive positioning, cross-functional alignment, and revenue.

The AI-Powered Strategy Stack

GTM & Product Marketing (The Core)

Product
Positioning &
Messaging

Competitive
Intelligence &
Pricing Strategy

Sales
Enablement &
Demand
Generation

AI & Automation (The Multiplier)

ChatGPT, Claude,
Google AI Studio,
NotebookLM

HeyGen,
Midjourney,
CapCut, Canva

n8n, Replit,
No-Code
Platforms

Growth & Analytics (The Engine)

HubSpot,
Mailchimp

Meta Ads,
Google Ads,
LinkedIn
Campaign
Manager

Google Analytics,
Microsoft Clarity,
Metricool

Leadership (The Glue)

Cross-Functional
Leadership (Engineering,
Sales, Legal)

Executive Communications
& Stakeholder
Management

A Trajectory of Accelerated Impact

2020–2023: The Storyteller

Content Writer
(Nspira / Velammal)

Mastering content strategy, institutional messaging, and audience engagement through communications.

2023–2024: The Strategist

PMM Contributor
(Finforz Technologies)

Driving FinTech GTM strategies, securing 300+ merchant activations, and crafting executive thought leadership.

2024–Present: The Architect

Head of BD / Product Owner (QIC Tech) & Head of Marketing (Ctrl Alt Creat)

Dual-leadership roles driving end-to-end B2B SaaS launches, leading agency growth, and deploying automated AI workflows.

Zero to Certified: The OPTIMO Launch Engine

Role: Product Owner & Head of BD, QIC Technology The Challenge: Build, secure, and launch a highly complex, configurable B2B SaaS workflow engine from scratch—with zero engineering background.	The AI-Powered Action: Conceived, scoped, and shipped the product using a comprehensive suite of AI and no-code platforms to bypass traditional development bottlenecks.
The Visual Compression Timeline & Results <4 Months Traditional Build Time: 12-18 Months Time from zero to production.	Achieved VAPT-certified production in regional record speed. Secured a “GOOD” security rating certified by Condition Zebra with zero vulnerabilities.

Disrupting the Enterprise Software Market

Developed comprehensive GTM playbooks across 4 distinct white-label verticals: Grant Navigator, HR Lifecycle, Student Lifecycle, and YP Portal.

Architected an enterprise pricing framework (RM 450K+ one-time license + AMC model).

Secured Malaysian Government MySTI certification (#528008).

Advanced to active commercial negotiations with government agency MRANTI.

OPTIMO

SAP/Oracle

Built a 5-year financial cost comparison model.

Demonstrated a proven 70% cost advantage.

RM 1.74M
in direct client savings.

Hacking Pre-Launch Demand at Scale

10,000+

Pre-launch sign-ups generated.

5x

Initial acquisition targets exceeded.

Role: Head of Marketing & Strategy, Ctrl Alt Creat

Project: Generate massive buzz for 'Lively', a wellness app.

Action: Designed and executed a targeted, multi-location experiential pre-launch strategy using structured AIDA frameworks.

Systematizing B2B Pipeline Growth

Challenge: Standardize B2B demand generation for QIC Training's enterprise pipeline.

Driving Rapid FinTech Adoption

Role: PMM Contributor & Brand Strategist, Finforz Technologies

The Challenge: Gain market share for RinggitPay among SME and Enterprise merchants.

Activation Curve

300+

Merchant activations secured within 6 months.

Diverse Portfolio Execution

dtcpay (Singapore)

SaaS GTM

Challenge: Slow merchant conversion in a competitive market.

Action: Pitched and designed the full 'Checkout in Under 7 Days' onboarding playbook and merchant growth strategy.

Status: Proposal accepted; in active implementation.

Sedania Group (Malaysia)

AI Content Strategy

Challenge: Comprehensive brand refresh required for Halal fintech on a strict budget.

Action: Executed full video production and social campaign entirely powered by AI tools (Midjourney, HeyGen).

Result: Secured and delivered a RM 30,000 contract within weeks.

Enterprise Brands

Brand Architecture

Action: Built complete brand books, sales decks, and campaign strategies.

Clients: Velvet Whisk, Pine Labs, and Finance with Uri.

Quantifiable Milestones & Certifications

Speed to Market

Built a VAPT-certified, government-ready SaaS product from zero in <4 months. (A regional speed record for a non-engineer).

Enterprise Economics

Architected financial frameworks demonstrating RM 1.74M in client savings against legacy tech like SAP and Oracle.

Client Diversity & Scale

Successfully managed GTM, demand gen, and product marketing for 8+ clients simultaneously across SaaS, FinTech, FMCG, and EdTech.

Continuous Certification

Digital Marketing Specialist (DRIM Global)
ChatGPT & Generative AI (GrowthSchool)
AI Automation with n8n & APIs (Ongoing)

The Unfair Advantage: Redefining Product Marketing

The Traditional Marketer	The AI-First Advantage (The Bala Approach)
Writes the strategy, waits on engineering and agency bottlenecks to build the assets.	Uses AI platforms to personally build, prototype, and ship GTM assets directly, shrinking delivery from months to weeks.
High reliance on external production budgets and extended timelines.	Integrates tools like HeyGen, Midjourney, and Replit to eliminate heavy outsourcing costs while maintaining premium quality.
Focuses on relaying technical specs and feature lists.	Leverages a deep background in literature to act as the ultimate translator—turning dry technical architectures into emotionally resonant, high-converting enterprise stories.

The Architect's Philosophy: Lessons Learned

The Human-Machine Synthesis

AI is a collaborator, not a shortcut. Genuine, scalable growth happens when you pair deep human strategic empathy with machine execution speed.

The Value of Perception

Positioning is a financial asset. How a product is framed directly dictates **what** an enterprise is willing to pay for it—proven by the ability to secure **RM 450K+** licensing deals against entrenched competitors.

The Reality of the Market

Momentum beats perfection. Getting a secure, working product to market in under 4 months teaches you infinitely more about the customer than a year spent debating in the development lab.

The Next Frontier

The Target Role:

Senior Product Marketing Manager, GTM Lead, or Head of Marketing.

The Target Environment:

Forward-thinking AI or B2B SaaS companies that value speed, innovation, and aggressive market capture.

Fully open to relocation across Europe, Dubai/UAE, or India to drive international expansion and cross-border Go-to-Market strategies.

The Ultimate Vision:

To build the marketing engines of the future—where AI handles the friction of execution, allowing humans to focus purely on high-level strategy and market connection.

Let's Build the Next Big Thing Together.

Whether it's launching a new SaaS platform from zero or redefining an established brand's market position, I am ready to architect your next phase of growth.
